PROFESSIONAL SUMMARY

MERN Stack Developer with 1.5+ years of experience in end-to-end front-end and back-end web development. Proficient in JavaScript and the full MERN stack – React.js, Node.js, Express.js, and MongoDB – along with PostgreSQL for relational data. Hands-on experience with AWS cloud infrastructure (EC2, S3, Lambda), writing clean, scalable, and maintainable code, and collaborating with cross-functional teams to deliver full-stack SaaS products end to end.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL

MERN Stack: MongoDB, Express.js, React.js, Node.js, Next.js, Redux, TanStack Query

Backend & APIs: REST & GraphQL APIs, NestJS, WebSockets, JWT/OAuth, caching, queueing, BullMQ, Redis

Databases: MongoDB, PostgreSQL, Redis, Firebase, Supabase, Drizzle ORM

AWS & Cloud: EC2, S3, Lambda, CloudFront, Docker, GitHub Actions, CI/CD pipelines

Other Tools: Stripe, Zoho Books, Jest, Swagger/OpenAPI, RBAC, Multi-Tenant SaaS

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer

Feb 2024 – Present

Jidat IT (Software House)

Islamabad, Pakistan

- Delivered end-to-end front-end and back-end features across 10+ modules using React, Next.js, Node.js, and Express, writing clean, scalable, and maintainable code for 3+ user roles.
- Built REST and GraphQL APIs with Node.js and Express, backed by MongoDB and PostgreSQL, supporting real-time chat, notifications, and alerts for 1K+ monthly users while cutting latency by 25%.
- Deployed and managed application infrastructure on AWS (EC2, S3, Lambda), improving reliability and cutting deployment time through Docker and CI/CD pipelines.
- Collaborated with cross-functional teams – product, design, and QA – to plan, build, and ship full-stack features on schedule, from database design through UI implementation.
- Implemented secure authentication and authorization using JWT, OAuth, and RBAC middleware, and improved API response times by up to 30% through Redis caching and query optimization.

KEY PROJECTS

Priority Dental Equipment (PDE) SaaS Platform

Dec 2024 – Present

Full Stack Developer – MERN, PostgreSQL, AWS

- Developed a multi-tenant full-stack platform (React, Node.js, Express, PostgreSQL) for Owners, Staff, and Admin workflows across multiple clinics.
- Built maintenance scheduling, compliance scoring, and reminder systems, reducing missed inspections by 60% through clean, maintainable backend logic.
- Used AWS S3 for secure file storage and integrated Stripe subscriptions, analytics dashboards, and exportable reports.

DSP Driving School Platform

Jun 2024 – Nov 2024

Full Stack Developer – MERN

- Built a role-based full-stack platform (React, Node.js, Express, MongoDB) with Admin, Instructor, and Student dashboards for 500+ users.
- Developed front-end and back-end features for scheduling, bookings, and Stripe payments, reducing manual workflows by 90%.
- Added real-time chat and notifications using WebSockets and GraphQL subscriptions, cutting response delays by 40%.

RTA Marketing CRM & Analytics Platform

Feb 2024 – May 2024

Full Stack Developer – MERN

- Designed a full-stack CRM (React, Node.js, Express, MongoDB) for Admins, Sales teams, and Virtual Assistants managing 1K+ leads and KPI dashboards.
- Built real-time sales analytics dashboards with sub-second updates for organization-wide monitoring.

EDUCATION

Bachelor of Science in Software Engineering

Sep 2020 – Aug 2024

International Islamic University, Islamabad

Pakistan

- CGPA: 3.66 / 4.00 Coursework: Data Structures, Algorithms, Database Systems, Web Development
